PROFESSIONAL EXPERIENCE

PRIMERICA, Duluth, GA
Application Developer/Project Analyst, 2015 - Present

- Write application codes in programming languages such as COBOL and JCL.

- Develop user interfaces, develop unit test cases and user documentation.

- Ensure that architecture outlined in requirements did not expose the system to malicious attack by interacting with the cyber-security team.

- Reduce project lags by supporting internal teams and client activities on strategic data analysis.

- Assist program managers with defining scope, milestones and timelines for multiple releases.

Heritage Bank of the South, Albany, GA
Business Analyst*, 2012 - 2014*

- Lead Project Manager in product development, testing and validation, risk assessment, and optimize production efficiency of multiple product lines.

- Led the development of ongoing enhancements, created and prioritized user stories with the agile teams.

- Managed a high-volume workload within a deadline-driven environment. Consistently met performance benchmarks in all areas; speed, accuracy, and volume.

- Worked directly with end users to capture and analyze challenges to their workflow.

- Provided key performance metrics to the Vice-President on the deliveries and benefits realization of change implementations.

- Prioritized work within an agile team and maintained a backlog of future work for consideration and prioritization.
